Civil War Store Cards

22 - IL692A-16a R3 PCGS MS65 BN 20% Red. Yankee Robinson's Big Show Triad 1869 with portrait. Robinson operated a traveling Circus based in Peoria Illinois. Late die state with large die crack from hand to rim with other smaller cracks. We sold a PCGS MS64 BN for $220 in our April 2018 auction. From the Dave Bowers collection. (300-400)

23 - IL692A-20n Unlisted PCGS VF25 Yankee Robinson The Great Comedian 1869 with incused reverse struck in Iron and Unlisted in this composition. Robinson operated a traveling Circus and had traditionally been listed under Cincinnati Ohio but now moved to Peoria Illinois where his base of operations was located at the time these Civil War tokens were issued. These very thin shells, normally Tin or White Metal (-2m and -20e) are sometimes called Brockage mint errors but they were likely made as intended. Fuld numbers -2n and -23n would appear to describe the same token and while both are called Unique neither may exist and are simply misdescriptions of this piece which is the only example of this style that is clearly not Tin or White Metal. To our knowledge there is only one other Iron Civil War Store Card NY630AM-1n, though there are a few Iron Sutler tokens. From the Dave Bowers collection, earlier from Rossa and Tanenbaum. Called IL692A-1n which it is not. (400-500)

24 - IL692A-21a R10 PCGS MS64 BN Trace Red with nice luster and attractive toning. Yankee Robinson The Great Comedian Big Show 1869 struck in Copper and believed to be Unique. The 3rd edition pictures for die 10130 and 10140 are reversed. That would make this Unlisted. From the Dave Bowers collection. (500-750)

25 - IL692A-21d Unlisted PCGS MS65 20% Bright. Yankee Robinson The Great Comedian Big Show 1869 struck in Copper Nickel and believed to be Unique. The 3rd edition pictures for die 10130 and 10140 are reversed. That would make this IL692A-21d and Unlisted in this composition while the Copper is listed as Unique. From the Dave Bowers and Steve Tanenbaum collections from PCAC. Called IL692A-18d on PCGS's holder. (750-1000)

026 028 030

26 - IL692A-24d Unlisted PCGS MS65 40% Bright with nice cartwheel luster. Yankee Robinson's Big Show Triad 1869 with 1864 Indian Head struck in Copper Nickel and thought to be Unique. The new book adds to the confusion of attributions of this merchant. The pictures for dies 10130 and 10140 are switched making this unlisted as the -17d sold in our April 2018 sale is different. From the Dave Bowers collection. Reverse Die: 1047. (750-1000)

27 - IL692A-25a Unlisted PCGS AU Details Surfaces Smoothed. We would say Cleaned with light scratches rather than smoothed. Yankee Robinson's Big Show Triad 1863 obverse die 34070 with Indian Head reverse die 1037 struck in Copper with a Reeded edge, unlisted as such and thought to be Unique. From the Dave Bowers collection, earlier from Rossa and Tanenbaum. Called IL692A-18a on PCGS's holder which it is not. Reverse Die: 1037. (150-200)

28 - IN140A-1a R7 PCGS MS65 BN Trace Red. H. Linck Dry Goods, Groceries & Hardware, Brookville Indiana 1863. Very scarce town and rare variety. A Raw AU in our March 2008 auction brought $180. From the Dave Bowers and Wayne Stafford collections, earlier from Rossa & Tanenbaum. Reverse Die: 1019. (500-750)

29 - IN175B-1a R5 PCGS MS64 BN Trace Red on both sides. Harley & Linvill Tin Ware, Columbia City Indiana 1863. We sold a Raw MS63 in our June 2013 sale brought $185.55. From the Tom Reed, Dave Bowers and Wayne Stafford collections earlier from Rossa & Tanenbaum. Reverse Die: 1088. (300-400)

30 - IN190A-1a R6 PCGS MS64 BN 10% Red with a bit more on the obverse. Saml. Beck Dealer in Hides and Pelts, Corunna Indiana 1863. This variety is rarely seen in Uncirculated condition. From the Tom Reed and Dave Bowers collections, earlier from Rossa & Tanenbaum. Reverse Die: 1127. (500-750)

031 032 033

31 - IN190B-4b R8 PCGS MS65 60% Bright and very nice for a Brass token. Ira W. Bowen Drugs & Medicines, Corunna Indiana 1863 with Mortar and Pestel struck in Brass. Very rare variety and likely underrated even at R8. From the Tom Reed, Dave Bowers and Wayne Stafford collections earlier from Rossa & Tanenbaum. Reverse Die: 1316. (750-1000)

32 - IN260C-3a R9 PCGS AU58 With nice toning and luster. C. T. Greene & Co. Groceries & Provision Dealers, Elkhart Indiana 1863. Struck from the rare obverse die though the variety is now overrated at R9 and more likely actually R8. It is now thought that -2a and -3a are the same variety both with the previously unpictured obverse. We sold a Raw EF+ that realized $511 in our December 2010 sale. From the Dave Bowers and Steve Tanenbaum collections. Reverse Die: 1161. (750-1000)

33 - IN290C-1d R9 PCGS MS65 40% Bright. Phoenix Grocery, Fort Wayne Indiana 1863 with Union Shield struck in Copper Nickel. Exceedingly rare variety, we know of no other. From the Tom Reed, Dave Bowers and Don Schramm collections. Reverse Die: 1222. (1500-2000)

34 - IN290E-4a R3 PCGS MS65 BN Trace Red on the obverse. W. H. Brooks Jr. Window Paper, Ft. Wayne Indiana. A fairly available token that is normally only seen in EF and lower condition, this is likely the finest known. From the Tom Reed and Dave Bowers collections, earlier from Rossa & Tanenbaum. Reverse Die: 1223. (200-300)

Civil War Store Cards

35 - IN290H-1a R4 PCGS MS62 BN C. Schoerpf & Co. Druggists, Ft. Wayne Indiana 1863 with Mortar and Pestle. Scarce single variety merchant. From the Tom Reed, Dave Bowers and Wayne Stafford collections earlier from Rossa & Tanenbaum. Reverse Die: 1316. (200-300)

36 - IN357A-1a R9 PCGS MS63 BN Trace Red on both sides. Alexander R. Brattin Jeweler, Greencastle Indiana with Pocket Watch reverse die. Formerly listed under Cleveland Ohio as OH175B-1a, current research has moved it to the Single Merchant Town of Greencastle Indiana. The only example of this merchant we have seen offered in recent years was the NGC MS63 R10 -2d example from the Bleviss collection that brought a strong $12,075 in Stack's March 2010 sale. This was at a time when it was still thought to be a very rare merchant rather than a very rare town, Though Stack's online catalog did speculate about the tokens eventual new home. From the Dave Bowers collection, earlier from Rossa & Tanenbaum. Reverse Die: 1319. (6000-8000)

37 - IN370A-2d R9 PCGS MS64 50% Bright. E. & L. Small Dry Goods, Boots & Shoes, Hagerstown Indiana 1863 struck in Copper Nickel. Very rare variety, the only example we have recorded. From the Dave Bowers, George Fuld, Julius Guttag and Virgil Brand collections. Reverse Die: 1018. (1000-1500)

Struck in Copper Nickel Cent of undetermined date and unlisted as such. The E and ENT of One Cent are easily visible on the reverse and the Chin, Nose and Neck of the Indian Princess are also easily visible on the obverse. A very important piece, the only Indiana Civil War token struck over a Cent that we know of and most likely Unique. 74 - MI225CJ-4a/b R9 PCGS MS64 BN 30% Bright more so on the reverse. Venn & Werford Butchers, Detroit Michigan 1863. This has every appearance of being full Brass and unlisted as such. The obverse is less obvious and has a coppery planchet streak and slightly different toning than the reverse which is bright Brass in color. Since full Brass is not currently listed we used the a/b, Copper/Brass, listed for this variety in the current book. Either way this is a significant item as tokens struck with the 1039 reverse die are almost never found in anything but Copper. The first we have seen offered. From the Dave Bowers collection, earlier said to be from us though we have no record of the transaction. Perhaps a labeling error as this is called MI225CJ-3a by PCGS while it is not dated 1864 nor in our opinion is it Copper. Reverse Die: 1039. (300-400)

279 - 127 248 d R9 PCGS MS64 40% Bright with nearly Proof Like obverse. 1864 Abraham Lincoln OK struck in Copper Nickel. One of the most available Lincoln Civil War tokens in Copper and Brass, though even then usually in well worn condition. Very rare in this composition From the Dave Bowers collection. 281 - 129 282 a R9 NGC MS64 RB 40% Red all on the obverse which is also nearly Proof Like, well struck and attractive. Abraham Lincoln 1864 with a crude eagle apparently with a broken neck dated 1863 struck in Copper. Very rare variety and reverse die. From the Mark Glazer and Andrew Zabriskie collection. (3000-4000)

282 - 131 131 b Restrike Unlisted PCGS MS66 80% Bright. 1864 Abraham Lincoln uniface restrike. Though seemingly called a contemporary Brockage by PCGS, we are quite certain this was made between 10 and 20 years ago as a token of appreciation by a one time owner of the 131 die. We sold the die for 131 in our October 2011 sale for $5,000. Sometime before that sale the prior owner of the die made a handful of oddities, primarily as gifts to friends. One such piece was an overstrike on a John Schuh's Saloon New York Civil War Store Card we sold on eBay for $255 in June 2020. In that instance, like the present token, we believe the reverse distortion is caused by metal flowing into the high relief design creating a ghost like mirror image and not as the result of the impression from another struck token as in a true brockage mint error. A rare and fascinating piece regardless of age. From the Dave Bowers collection, earlier from Wayne Stafford. (400-500)

283 - 134 472 d R9 PCGS MS66 60% Bright and well struck. Lincoln Redeemed East Boston 1837 struck in Copper Nickel. Two rare dies. We sold an NGC AU58 example of the equally rare R9 Brass variety for $1,200 in our January 2015 auction. From the Dave Bowers collection. Data: 180°, 54.3 grains, 18.7 mm. (3000-4000)

284 - 136 397 a R1 PCGS MS66 BN Trace Red, strong strike with great cartwheel luster. Beware "Copperhead" 1863 with coiled snake. Always popular, an NGC MS64 BN sold for $240 in our December 2016 sale. From the Dave Bowers collection. (400-500)

285 - 136 397 do R10 PCGS MS63 40% Bright over on a Copper Nickel Indian Head Cent. Beware "Copperhead" 1863 with coiled snake. Although not noted on the PCGS holder this token is actually a flip over double strike in addition to being struck over a Copper Nickel Cent. A very dramatic mint error. From the Dave Bowers collection. Data: 180°, 71.6 grains, 20.3 mm. (1000-1500)

286 - 142 347 a R7 PCGS MS65 BN Trace Red mainly on the obverse. General McClellan with Union shield and flags within wreath struck in Copper. From the Dave Bowers collection from Rossa and Tanenbaum September 1997. (500-750)

287 - 143 261 a R1 PCGS MS65 BN Sharp strike with nice toning. This Medal of G. B. McClellan Price One Cent with a very life like rendition of a US One Cent reverse. From the Mark Bendett collection. (200-300)

288 - 146 472 j R8 PCGS MS65 60% Bright but a bit weakly struck as is often seen with this die combination and composition. 1864 General Burnsides Rhode Island First In The Field muled with 1837 East Boston Hard Times token reverse struck in German Silver. From the Dave Bowers collection. Data: 180°, 32.7 grains, 18.6 mm. (1500-2000)

Exceedingly rare obverse die in the Patriotic series, only known in Silver and White metal both rated R9. This die was deleted in the fifth edition of the Patriotic book as Non-contemporary. This was in error and has again been added to the new sixth edition. This die is thought to be the center portion of John Bolen's Liberty Cap Store Card die 90070. One of the Classic Rarities of the entire series. We sold a Raw UNC Details with an obverse nick of the seemingly more available White Metal variety for $2,400 in our August 2015 sale. From the Mark Glazer, Larkin Wilson, Joe Kuehnert, John Harris and Steve Tanenbaum collections. (6000-8000)

299 - 191/443 a R1 NGC MS66 BN Trace Red, well struck with very nice cartwheel luster. Pro Bono Publico 1863 New York. (200-300)

300 - 191 443 do R9 NGC AU55 1863 Pro Bono Publico with New York on reverse struck in Copper Nickel over an 1858 Small Letters Flying Eagle Cent with excellent under type detail. While Civil War tokens struck over Indian Head Censt are somewhat available, particularly recently with the dispersal of the Bowers and Tanenbaum collections, those over Flying Eagle Cents have always been very elusive. From the Mark Glazer and Steve Tanenbaum collections, earlier from our July 2012 sale and still earlier from Chuck Kirtley October 1984 (1500-2000)

301 - 196 355 a R3 PCGS MS65 BN 10% Red more so on the reverse with nice cartwheel luster. United States of America 1863 with eagle on shield Not One Cent signed E. S. for engraver Emil Sigel of New York. From the Robert Williams collection. (150-200)

We sold a Raw VF Details example that was a bit porous for $2,400 in our December 2017 sale. From the Dave Bowers collection, earlier from Rossa & Tanenbaum and Bowers & Merena. (6000-8000)

We sold an NGC MS63 example of the equally rare 253/295 mp for $3,050 in our January 2016 sale. From the Mark Glazer, Larking Wilson and George Fuld collections. The Plate Specimen in Fuld's 1959 Patriotic Book and likely all other editions except the most current though because of poor photos except for the actual photographic plates on the 1959 edition it is difficult to tell for sure. (3000-4000)

310 - 258/446 a R3 NGC MS63 BN 1863 Trade And Commerce with sailing ship. Very scarce in AU and Uncirculated condition. (150-200)

Ed Rosen who bought the George Fuld collection of Rhode Island was primarily a Store Card collector. When he discovered that a number of the pieces he received had been reclassified as Patriotic tokens he thought he had been taken. Fortunately, Steve Tanenbaum came to the rescue purchasing all the unwanted tokens at a considerable premium over what Ed had paid George. In the following years Ed was able to greatly enhance his Store Card collection from this windfall. From the Dave Bowers, Steve Tanenbaum, Ed Rosen and George Fuld collections. (2000-3000)

342 - VICTORIA on Civil War Token NGC VF20 BN Coin FINE. It is thought that this is a Civil War era Political counterstamp with the Queen of England's name counterstamped just below Beware and above the Copperhead Snake on Civil War Patriotic token 136 397. Through much of the war there was a great fear in the North that England could take the side of the South. This specimen was featured in "The Wealth of the South and Beware Victoria" appearing in the Spring 1970 (V4N1) issue of the CWTS Journal, which told the story of how perilously close Great Britain came to recognizing the Confederacy, an act which author Benj Fauver suggested would have resulted in war between the United States and the United Kingdom. Listed on NGC holder as Rulau NY 964D which Rulau describes as a latter type while this is an earlier type, perhaps NY 964E would be a better designation. Regardless a rare and apparently unlisted type. From the John J. Ford collection Stack's Bowers August 2013. (200-300)

350 - LOW 27 / HT-41 R7 PCGS AU55 1837 Liberty Millions For Defense Not One Cent For Tribute. Very rare variety, just one of five we have seen offered in the last twenty plus years. Long known as the Bushnell series, these fantasy Hard Times tokens are now thought to have been commissioned by Joseph Levick rather than Charles Bushnell. They have long been collected as part of the series first being cataloged by Lyman Low in 1899 with their first auction appearance dating to the early 1880's. Much like the inclusion of unique varieties in a Civil War token collection the inclusion of one of the Bushnell pieces often serves to identify a truly advanced collection of Hard Times tokens. From the Dave Bowers collection earlier from our February 2014 sale were it realized $3,910. (2000-3000)

From the Dave Bowers and Steve Tanenbaum collections, earlier from Richard August February 1974. (1500-2000)

357 - LOW 52 / HT-71 R3 NGC MS64 70% Bright with great cartwheel luster. The Constitution As I Understand It Roman Firmness Veto with Jackass labeled LLD struck in Brass. We sold a less bright Raw MS62 in our December 2012 auction that realized $358. (750-1000)

Rare variety missing from many collections, often misattributed but easily recognizable with reverse dash under Cent and berry under second E in Defense. Exceedingly rare, we sold a Raw EF Details example dark with green verdigris spots in our June 2012 auction that realized $2,390. From the Don Partrick collection from Rossa and Tanenbaum at $1,200. (1500-2000)

392 - LOW 283 HT-324 R5 PCGS AU50 Squire & Merritt Ship Chandlers and Rope Makers, New York. A very confusing merchant to attribute with many die and sub varieties. Adding to the confusion Rulau's listing and spacing where the descriptions of the varieties proceed the listing rather than follow it as in other sections of his book. This is die combination 3-B with a Reeded edge and no counterstamp. From the Dave Bowers and Steve Tanenbaum collections. (300-400)

393 - LOW 318A / HT-346 R4 PCGS MS62 BN 10% Red more so on the reverse. Hiram Judson Silver Smith, Syracuse New York struck on a Plain edge planchet. Both the Plain and Reeded edge varieties are very rare in Uncirculated condition. We sold a Raw MS62 example for $900 in our February 2014 auction. 394 395 396

394 - LOW 77 HT-348 R5 PCGS VF30 Well centered and struck with much detail visible that is typically missing from this variety. Bucklin's Interest Tables, Troy New York 1834. An exceptionally detailed example, so much so it was chosen as one of the two Adams plate tokens for this variety. 395 - LOW 93 HT-355 R4 NGC AU50 BN Fairly early die state with the beginnings of the die crack that would become quite prominent and spawn cuds. This variety, Woods 25, of the Canadian Blacksmith series is a mule of bust right with the reverse of the Starbuck tokens Low 156 and Low 284. This token was made by Daniel and Benjamin True of Troy NY and exported to Canada as intentionally lightweight tokens. An extremely rare variety missing from most major Hard Times Token sales. The Ford Raw Fine brought $2,820 in StacksBowers August 2013 sale. From the Dave Bowers and Steve Tanenbaum collections. The Plate token in Dave Bowers book on the subject. (2000-3000)

398 - LOW 181 / HT-399 R6 NGC MS61 Charles W. Bender Philadelphia 1842 struck in German Silver with the 42 of the date upside down and backwards. Bender was the proprietor of the Star Hotel at 71 Dock Street. Very rare merchant. A Raw EF+ example brought $2,100 in our January 2015 sale . From the Don Partrick, Don Miller and William Dunham collections, earlier from Dave Bowers via John Ford on June 29th 1983 for $2,275. (1500-2000)

399 - LOW 149 / HT-413 R7 NGC XF45 Corporation of Philadelphia 50 Cents struck in German Silver circa 1835-36. Signed F.S. which is though to represent Feuchtwanger Silver. The token's composition, wreath, berries and ribbon are all very similar to Feuchtwanger Cents of 1837. One of the classic rarities of the Hard Times, the only other example we have handled was a VF Details porous example in our August 1996 sale that realized $2,640. More recently an NGC XF40 sold for $11,750 in Heritage's December 2012 auction. From the Don Partrick, Don Miller, John Ford and Elliott Smith collections, earlier from Dave Bowers via John Ford on June 29th 1983 for $2,975. (8000-12000)

400 - LOW 108 / HT-430 R6 NGC MS61 Trace Bright. R. L. Baker Good For 1 Glass Soda Water, Charleston South Carolina 1837 struck in German Silver. Counterstamped with a tiny D indicating it was once part of the William Forrester Dunham collection. He counterstamped his entire collection including his 1804 Dollar! Very rare and much nicer than normally seen with problems as often seen. We sold an NGC AU50 example for $5,500 in our January 2016 sale. From the Don Partrick, Don Miller and George Hetrich collections, earlier from Dave Bowers via John Ford on June 29th 1983 for $2,450. (8000-12000)

401 - LOW 128 / HT-309 R5 NGC XF40 R. E. Russell IOU 12½ Cent Token 1837 Columbia South Carolina struck in German Silver. Long assumed to be from New York City due to its association with the Feuchtwanger pieces, ground breaking research by Aaron Packard shows it was actually issued by Robert E. Russell of Columbia South Carolina. Russell operated a Botany Garden which included a Public Bath. Long one of the most desirable Hard Times tokens and rare, particularly so problem free. Now just one of two rare South Carolina Hard Times token with a fascinating story and exotic location. We sold a Raw problem free VF for $2,115 in our June 2011 auction. From the Don Partrick, earlier from New Netherlands October 1975 sale. (3000-4000)

402 - LOW 176 / HT-434 R5 NGC VF25 BN But uneven strike as usual with a some roughness. Gustin & Blake 1835, Chelsea Vermont. The unevenness results in Chelsea VT and a number of stars being very weak or missing but with a fairly strong merchant name and coffee pot though on this one the date is not clear. Distinguishing between Low 175 and 176 is difficult and we believe a Low 175 illustrates both varieties in Rulau. Refer to lot 318 in the Ford Hard Times sale for a well struck Low 176 and note the base of the T's in Stoves and Tin and base of E in Ware. We sold another NGC VF25 in our June 2013 sale that realized $850. From the Don Partrick and Don Miller collections, earlier from Dave Bowers vie John Ford on June 29th 1983. (750-1000)
